

OPSU is situated in the heart of one of the largest agricultural regions in the nation, giving students the opportunity to experience farming and ranching lifestyles firsthand. The surrounding area not only supports a variety of crops such as wheat, corn, and grain sorghum but also is home to large cattle and pork facilities. The agriculture faculty at OPSU is dedicated to giving students hands-on opportunities such as having classes at the OPSU farm or the Firestone Meat Lab and providing the opportunity for employment at both of these facilities. By combining facts with hands-on opportunities, each student has the capability to obtain one of the best agricultural educations offered in the State of Oklahoma.

SCHOOL OF AGRICULTURE

**GETTING STARTED AT
OKLAHOMA PANHANDLE
STATE UNIVERSITY**

SCHOOL OF AGRICULTURE DEGREE PROGRAMS

Oklahoma Panhandle State's School of Agriculture offers several courses of study in five major departments. The following, plus more detailed information, can be found at http://www.opsu.edu/dwn/CATS_OPSU_CATALOG.pdf

Agribusiness

Agribusiness (BS)

Agribusiness (Minor)

Agriculture Economics (Minor)

Agricultural Education

Agricultural Education (BS)

Agriculture

Agriculture (AS)

Agronomy

Agronomy (BS)

Agronomy (Minor)

Business Option (BS)

General Option (BS)

Science Option (BS)

Animal Science

Animal Science (Minor)

Business Option (BS)

General Animal Science (BS)

Livestock Production & Management (BS)

Meat Science Option (BS)

Nutrition Option (BS)

ACTIVITIES

Collegiate activities popular in the School of Agriculture include:

***Collegiate FFA *Block and Bridle Club *Women in Agriculture *Rodeo Team *Rodeo Club *Crop Judging *Livestock Judging**

FACILITIES

Those majoring with an animal science degree specializing in meat science will become familiar with the Firestone Meat Laboratory. Open since 1982, the Firestone Meat Lab operates both as a learning environment for OPSU's student body and as a service to local producers.

Many (if not all) of your classes in the School of Agriculture will take place in the Science and Agriculture building.

Other facilities of interest will be the school farm, rodeo practice arena, and greenhouse.

DEPARTMENT CONTACTS

Dr. Peter Camfield – Dean, School of Agriculture

Phone: (580) 349-1514
