March 25, 2008

Dear K-12 Math Teacher,

Last summer, Oklahoma Panhandle State University conducted what proved to be its second highly successful seminar/workshop for teachers of mathematics in the Oklahoma panhandle area. Many of you attended and we are confident that the skills you learned are being applied in your classrooms, making you more effective teachers and, in turn, increasing the learning of your students. We are now sending out applications to every teacher of mathematics in grades K-12 for the next seminar/workshop that we will be having. The seminar/workshop during the summer of 2008 will provide each participant with a hand-held PDA, a digital camera, and manipulatives that can be used in your math classroom.

The seminar/workshop will take place on the OPSU campus May 27-31 and June 7, 2008, and will have two follow-up meetings during the fall 2008 semester on October 2<sup>nd</sup> and November 22<sup>nd</sup>. You may review the schedule printed inside the flyer for specific times, dates, and location. Please remember that attendance at all sessions is required.

As in the past two summers, this seminar is limited to 25 participants; therefore, I encourage you to return your applications as soon as possible. All applications must be received by April 2, 2008, and we will notify the selected participants by the first of May.

Sincerely,

R. Wayne Stewart, Ed. D.  
Dean of Education,  
Oklahoma Panhandle State University
