

Name: Linda Johnson

Grade Level/Subject: 9<sup>th</sup> Grade Alt. Ed. Math

Topic: Place Value

Objectives (P.A.S.S.): Standard 1: Problem Solving

Instruction: In our number system the placement of each digit in a numeral is important. Each place has a certain value. Study the place value chart. Memorize the names of the places.

Instructional process: Reading and writing whole numbers can best be explained by using a place value chart. Read from left to right. Commas are inserted every three places to help identify place value.

Closure: The place value chart is something you have to use in everyday life. You need to know how to read numbers.

Assessment: Write the name of the place for digits shown.

Modifications/Accommodations: They needed a place value chart so they could do the homework ask for.

Reflection: They just need to practice doing the place value of numbers.
